THE **ALUMINUM DOOR LADDER** FOR  
SAFE & CONVENIENT DAILY WORK.

# PDE ALUMINUM DOOR LADDER

---

The PDE rear ladder offers additional convenience and safety when loading and unloading your PDE roof rack system. This product is fabricated from the same high-grade aluminum as our other products and utilizes engineered features that preserve your vehicle and make installation simple.

ECO-FRIENDLY  
& RECYCLABLE

FUEL-EFFICIENT

## MOUNT WITHOUT DAMAGING YOUR VEHICLE

The Aluminum Door Ladder product is mounted with a clamping system, avoiding having to drill into the bodywork, preserving the integrity and resale value of your vehicle. This lightweight product can easily be installed by one person and fits any LCV. If you have a fleet or more than one of the same model of van, the Aluminum Door Ladder can easily be moved from one vehicle to another.

## HIGH-PERFORMANCE, SUSTAINABLE MATERIAL

Aluminum not only looks great but is corrosion-resistant and durable. The aerodynamic design and low weight help reduce fuel consumption.

## THE PERFECT FIT FOR YOUR VEHICLE

The PDE Aluminum Door Ladder is available for all LCV models including; Fiat Ducato, Mercedes Sprinter, VW Crafter, Peugeot Boxer, Citroen Jumper, Opel Movano, Nissan NV400, Renault Master, Iveco Daily and others. We are continuously adapting this product to fit new models as they come onto the market. This product precisely fits the rear door of your vehicle and does not interfere with other PDE products and your daily work.

# ABOUT PDE AND OUR AWARD-WINNING PRODUCTS

Prime Design Europe is one of the leading manufacturers of roof rack systems and interior protection products for LCVs. We develop and manufacture innovative and patented product lines (AluRack®, ErgoRack™) with the aim to ease professionals' daily tasks while making their safety and their health our number one priority. We are constantly improving our solutions to adapt to market needs and newest vehicles.

Prime Design Europe distributes its roof racks, ladder racks, LCV accessories and protection solutions through partners and automotive specialists in Europe, and constantly seeks for new alliances in the market. Our facilities in Belgium, Denmark and Bulgaria support customers and dealers locally. Design, manufacturing, and assembly is carried out where our significant warehouse capacity allows for prompt deliveries.

Prime Design is a partner of the Austrian initiative for safe transport: [www.sicher-transport.eu](http://www.sicher-transport.eu)

Prime Design Europe has been selected and an official partner of the 'Van Excellence Code' that aims to enhance standards of van operator compliance.

With our ISO 9001:2015 and ISO 14001:2015 quality management system, we guarantee the highest standards are applied to the sales and distribution of our products. We have defined the appropriate benchmarks for each step in the production and order process. This allows us to evaluate the quality of the work we deliver on an ongoing basis.

Prime Design Europe roof racks are protected by patents.
