Protection **PDE**
PRODUCTS

PROTECT YOUR CARGO AREA WITH
DURABLE **PROTECTION PRODUCTS**.

PERFECT-FIT FLOOR PANELS & SIDE PANELS BUILT TO LAST.

PDE's floor panels and sidelining provide the very best protection for your vehicle while transporting goods and equipment. Thanks to our computer-controlled production process, PDE protection products are fitted to the exact model and size of every van.

Your goods will travel safely and your LCV will be protected from sharp edges and bumps causing dents and damage to bodywork. Our protection products also improve sound insulation with reduced resonance in the cargo area.

ADVANTAGES

ECO-FRIENDLY & RECYCLABLE

Birch plywood and recyclable plastics

WEAR-RESISTANT

Wear-resistant, anti-slip materials on contact areas

OIL & WATER-RESISTANT

Phenol and polypropylene materials

ACID-RESISTANT

Protection of bodywork and paint

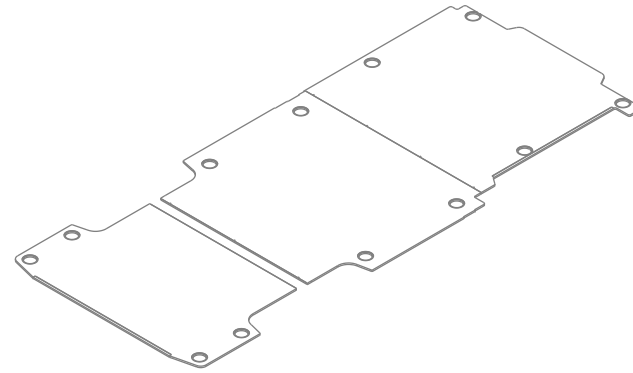

100% CERTIFIED WOOD

Certified Finnish Birch wood

FLOOR PROTECTION

SEE MORE: pde-group.com

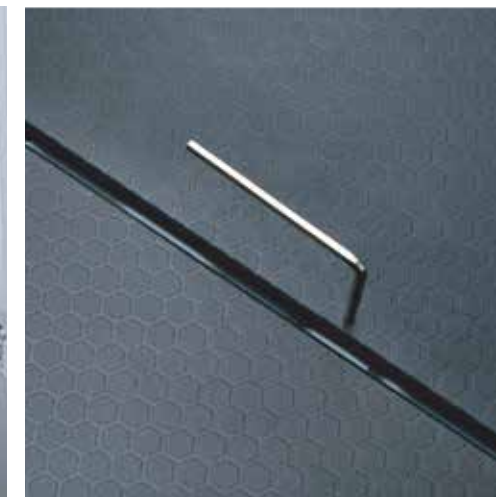

EASY INSTALLATION & REPLACEMENT

Complete floor protection is delivered in a pack of multiple panels making it easy to handle and reducing. The smaller panels reduce the chance of damaging the vehicle while installing and an individual panel can be replaced if needed.

QUALITY MATERIALS

We use high-quality, **12mm plywood made from certified Finnish Birch** (700 kg/m³) and a **wear-resistant, anti-slip phenol top sheet**. To ensure the lifespan of this product the top sheet is adhered with **WBP glue** and the edges are finished with acrylic paint for a clean and professional look.

QUICK-CONNECT SYSTEM

One person can install a floor protection system, quickly laying down the floor panels and joining them through our unique connection mechanism.

FAST

1 hex key needed to connect panels

EASY DISASSEMBLE

Panels come apart with the swivel lock.

ACCURATE POSITION

A plug holds the connector in place and helps in positioning.

FIRMLY ANCHORED

A high-quality plastic connector pulls panels closed.

SIDE PANELS

TRANSPORT VEHICLE PROTECTION IN TWO MATERIAL OPTIONS.

Protection panels extend the life of your van. Save on costly repairs and create and do your everyday jobs with clean, orderly, and professional-looking vans. We offer our side panels in two high-quality materials, a 3-layer eco polypropylene board and certified Finnish Birch plywood finished in wood veneer. Computer-controlled production in our own factories ensures a perfect fit in your vehicle every time.

HONEYCOMB STRUCTURE ECO-POLYPROPYLENE PANELS

This extra light, eco-friendly 3-layer polypropylene board is scratch and chemical resistant. It can handle extreme impact and protects your loading and cargo efficiently and economically.

PROPERTIES:

Thickness: 4mm

Quality: 100% PP

Weight: 1500 gr/m²

Certification: PEFC-labeled

100 % Recyclable

WOOD PANELS

Our wood panels are easy to clean, oil and acid-resistant. The plywood is laminated on both sides with a light phenol 120 g/m² film.

PROPERTIES:

Thickness: 4mm & 6mm

Quality: 100% Birchwood

Weight: 2700 & 4000 gr/m²

Certification: PEFC-labeled

100 % Recyclable

CONTACT US FOR MORE INFORMATION ABOUT OUR AWARD-WINNING PRODUCTS.

Prime Design Europe is one of the leading manufacturers of performance rack systems and interior products for LCV. We develop and manufacture innovative and patented product lines (AluRack®, ErgoRack™).

Prime Design Europe distributes through partners and specialists and is one of the leading roof rack specialists in Europe. Our facilities in Belgium, Denmark and Bulgaria support customers and dealers locally. Design, manufacturing, and assembly is carried out where our significant warehouse capacity allows for prompt deliveries.

Prime Design is a partner of the Austrian initiative for safe transport: www.sicher-transport.eu

Prime Design Europe has been selected and an official partner of the 'Van Excellence Code' that aims to enhance standards of van operator compliance.

With our ISO 9001:2015 and ISO 14001:2015 quality management system, we guarantee the highest standards are applied to the sales and distribution of our products. We have defined the appropriate benchmarks for each step in the production and order process. This allows us to evaluate the quality of the work we deliver on an ongoing basis.

Prime Design Europe roof racks are protected by patents.
